About Chess for Success

Founded in 1992, Chess for Success is not a chess program looking for the next Bobby Fischer, it is a unique, proven and cost-effective program that helps K-8th grade students in low-income schools develop essential social and academic skills

Chess for Success has helped more than 20,000 K-8 grade students in low-income schools be more successful in school and in life by using chess to teach critical thinking, good decision making, creative problem solving and patience. Our unique program offers proven results in essential subjects like math and reading and on state standardized testing.
