

Position Title: Development Director
Reports to the Executive Director

The mission of Chess for Success is to help children develop the skills necessary for success in school and life through learning chess. Chess for Success is not a chess program; it is an educational program that uses chess to teach children high-level thinking and social skills. Activities are managed by a paid coach, a teacher at the school, who provides chess instruction after school. We are currently serving 3,200 K-8th grade students in 81 schools in 21 school districts where an average of 73% of students qualify for free food programs and the average percentage of minority students is 50%.

In addition to the after-school program, Chess for Success conducts scholastic chess tournaments throughout the state. These tournaments have a 47-year history. Last year approximately 2,000 young people in Oregon participated in 24 regional tournaments, and 600 players qualified to play in the finals held at the Oregon Convention Center.
